Intentional Parenting

Every parent has dreams for their children. As parents, we all start out with the best intentions. Although, at some point, we move from DREAMS to DUCT TAPE and hope that each day everything will just stick together. Raising kids in today's culture is a difficult challenge and it requires a plan. Without a plan, parents usually default to Quick-Fix Parenting. Let's face it: it's just easier to focus on immediate problems rather than deal with the deeper and more important ones. Surviving each day is much easier than taking the time and energy to consider how parenting actions impact a child's future. We get it. To be an exceptional parent, you need to be an intentional parent. But, don't worry! It's never too late to become an intentional parent. Remember, you are the GREATEST influence on the life of your child (no matter their age)! And it can all begin with this focus. Let's walk this important journey – together.

We meet every Thursday from Sept 26th. until Oct 24th.
