When Trauma Comes to Visit

Reverend Chuck Congram

Scripture: John 20:1-2, 11-18

JB Philips Translation

There are several learnings which will be important for us.

I. Traumatic experiences significantly alter our view of:

- A. Ourselves.
- B. The _____.
- C. _____.

II. Trauma often happens in isolation but gets healed in _____.

Notice how Mary immediately goes in pursuit of people with whom she can share her experience.

III. Because trauma is episodic in nature it requires an episodic experience for healing.

By episodic we mean an event that is life impacting-which in the case of trauma is negative but in the case of healing is positive. It took but one word from Christ for her trauma to be resolved. What was that word?

Thank you for your continued support.
